Products – Hohenstein White Scale (payable when ordering)**Set:** Transfer standard consisting of 4 white levels**Single Shipment:** 1 set in a one-time shipment**Subscription:** 4 shipments with 1 set each, dispatch every 3 months

TYPE 1 Article No. 830	can be used with measurement devices with a moveable UV filter, e.g. Datacolor International, XRite, HunterLab, Lorentzen & Wettre, Minolta. <i>Durability: 3 months</i>	<input type="checkbox"/> Single shipment Quantity:	<input type="checkbox"/> Subscription
TYPE 2 Article No. 831	is like type 1, but with additional documented remission values. UV adjustment is calculated by measuring and entering values. It can only be used with suitable devices (e. g. Minolta, CM-36xx- or CM-26xxxseries). <i>Durability: 3 months</i>	<input type="checkbox"/> Single shipment Quantity:	<input type="checkbox"/> Subscription
TYPE 3 Article No. 835	is like type 2, but calibration data are also provided on a mini-CD that can be directly read into the software. This is only suitable for the “Polaris White Star” measurement system from Axiphos. <i>Durability: 3 months</i>	<input type="checkbox"/> Single shipment Quantity:	<input type="checkbox"/> Subscription

Products – Illumination Control Sample (payable when ordering)

SYNTHETIC A	1 synthetic plate (60 mm x 90 mm), with double-sided matte finish and two marked measurement points each < 35 mm in diameter. <i>Durability: 1 year</i>	Quantity:
SYNTHETIC C	1 synthetic plate (50 mm x 75 mm) matte, without markings or measurement points, and therefore suitable for larger measuring diaphragms <i>Durability: 1 year</i>	Quantity:
