FACTSHEET

HOHENSTEIN

Tested Period Underwear

Goal

Period underwear must be safe, well-fit, comfortable and sustainable.
Our independent tests allow you to credibly communicate claims and gain an advantage over your competition.

Benefits

With Hohenstein-tested period underwear, you are on the safe side regarding legal conformity, textile labelling, fit, function and finishing.

Comfortable, sustainable, secure – communicate the strengths of your product to meet the needs of the target group.

Tests & Standards

Mandatory

- Absorbency according to FEMTECHMAS-6513-1:2022
- Fit (when labelled)

Further tests on request, e.g. stain removal or common quality tests.

Requirements for Test Samples

Sample material:

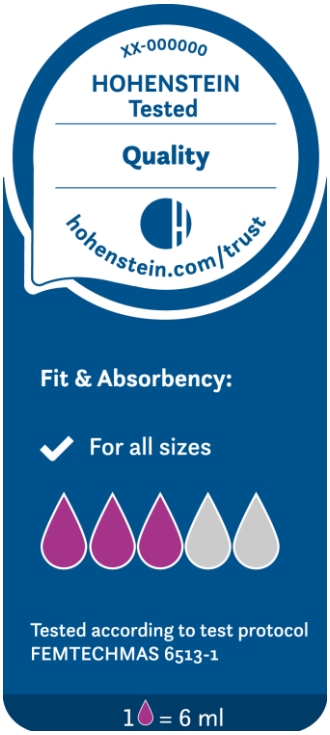
- Absorbency: 6 pieces
- Fit: 3 pieces per size
- More pieces depending on optional tests

Duration of testing:

- 10-15 working days after detailed coordination of the technical data and sample input

Hohenstein Quality Label:

To earn the Hohenstein Quality Label, the absorbency must meet the test protocol FEMTECHMAS-6513 co-developed by Hohenstein. Fit testing is strongly recommended.



Example on left:
Absorbency does not depend on clothing size or for assured absorbency (e.g., smallest size).

Example on right:
For patterns with absorbency dependent on size. The listed size specifications are exemplary.
